MODERNISE MEDICINE

FACULTY OF MEDICINE
“Knowing that UNSW is a leader in medical research was really crucial in my decision making because I know the medical workforce is getting more and more competitive. UNSW builds research into its medical program which means once you graduate you are in a much better position to get a job.”

ASHNA BASU
Bachelor of Medical Studies/Doctor of Medicine
Most in-demand degree
The Bachelor of Medical Studies/Doctor of Medicine at UNSW is the most popular first-preference choice in the state for school leavers. This is a testament to the quality of our students and of the training delivered by accomplished researchers, teaching staff and clinicians, which sets graduates up for an exciting career in medicine.

Leaders in the field
Driven by innovation and excellence, UNSW is proud to rank among the world’s top 100 universities for Medicine* and among Australia’s leaders in medical education and research. We are world leaders in the fields of cancer, neuroscience, mental health, addiction, infectious disease, immunity and inflammation, and non-communicable disease such as cardiovascular disease.

“Rankings are really important to me and take into consideration elements like the curriculum, quality of the medical school and the research done at the university – all those aspects definitely factored into my decision to study at UNSW Sydney.”

ASHNA BASU
Bachelor of Medical Studies/
Doctor of Medicine

World class bio-medical and clinical training facilities
Students undertake clinical training in some of Australia’s largest metropolitan and rural hospitals. UNSW Medicine is an important player in the elaborate vision to lead in the broader Sydney Health Precinct development. Our campuses feature cutting edge learning environments that translate research directly through to community impact.

Hands-on learning
In our extensive undergraduate Medicine program we incorporate hands-on learning with patient interactions from year one, and produce students who are skilled, professional and innovative clinicians with a strong grounding in research and teamwork skills.

Student opportunities
**Student exchange with overseas partners**
Broadening your global perspective.

**Mentoring programs**
To help you with your transition to university.

**Scholarships and awards**
Rewarding excellence and making university life accessible to students from all walks of life.

**Societies and clubs**
Over 300 clubs and societies to choose from!

Lowy Cancer Research Centre
Bachelor of Medical Studies/Doctor of Medicine

Phase 3 (Clinical placements)

Bachelor of Medical Studies (BMed)
Collaborative learning and teamwork is an important component of the Bachelor of Medical Studies. Phase 1 begins with the Foundations course, leading into basic medical and social sciences in relation to the human life cycle, social, ethical and legal issues. Clinical and communication skills training commences from Phase 1. Phase 2 provides increased clinical exposure in hospitals placements combined with ongoing learning in biomedical sciences.

Doctor of Medicine (MD)
The MD includes the Independent Learning Project (ILP) followed by clinical courses in the disciplines of internal medicine, surgery, psychiatry, primary care, obstetrics, gynaecology and paediatrics. There is also an elective clinical course that could be undertaken interstate or overseas. Phase 3 consists of 10 eight-week courses with a clinical focus, includes relevant content from the biomedical sciences and the social sciences. Completion results in provisional registration, allowing commencement of a hospital internship before being recognised as a medical practitioner.

UNSW Medicine offers select students an opportunity to complete the Medicine program at our Port Macquarie campus.

Structure

- Phase 1 (Biomedical, clinical and social sciences) + Phase 2 (Integrated Clinical Courses and Independent Learning Project (ILP)) + Phase 3 (Clinical placements)

Career opportunities
Graduates who obtain full registration from the Medical Board of Australia are able to work as medical practitioners in hospitals and private practices. Further study and experience enables graduates to specialise in a specific area of medicine, such as general practice, paediatrics, cardiology, oncology, general surgery, orthopaedics, pathology, radiology, or psychiatry. There are also opportunities in medical research, health policy and medical education.

Majors
- Medical Studies
- Doctor of Medicine

Combine this degree with:
Arts

Professional recognition
After completing formal Medicine program requirements for the award of the BMed MD degrees, you will be provisionally registered by the Medical Board of Australia to work for at least one year in selected hospitals (internship) before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

*For further information on medicine entry visit med.unsw.edu.au/med-how-to-apply.

Bachelor of Exercise Physiology

- Duration 6 years
- Entry Selection Rank + UCAT + interview
- 2019 Lowest ATAR1 – Local Entry* 97.20 – Rural Entry Scheme* 91.45
- 2019 Lowest Selection Rank2 ATAR + UMAT + interview
- 2020 GE RANK3 N/A
- Assumed knowledge English Standard

The UMAT has been replaced by the UCAT for entry into Medicine from 2019.

Our six-year integrated Medicine program, which leads to the awards of Bachelor of Medical Studies (BMed)/Doctor of Medicine (MD), includes a compulsory Independent Learning Project (30 UOC) to ensure that all graduates acquire in-depth knowledge of research principles and methods applicable to medicine and its professional practice. We are ranked among the world’s top 100 universities by Subject 2019).

The program consists of:
- Bachelor of Medical Studies (BMed)
- Collaborative learning and teamwork is an important component of the Bachelor of Medical Studies. UNSW Medicine offers select students an opportunity to complete the Medicine program at our Port Macquarie campus.

Structure

- Exercise Science + Exercise Physiology + Clinical Practicum + Research Internships

Career opportunities
Exercise Physiologists work in private practice, hospitals, medical clinics, or research in the area of exercise for prevention and management of chronic disease such as musculoskeletal and neuromuscular disorders, and cardiopulmonary and metabolic conditions.

Majors
Exercise Physiology

Professional recognition
The UNSW Bachelor of Exercise Physiology is accredited with Exercise and Sports Science Australia (ESSA) essa.org.au, the national governing body for the Exercise Physiology profession.

Bachelor of International Public Health

- Duration 3 years
- Entry UMAT + interview + ATAR
- 2019 Lowest ATAR1 75.90
- 2019 Lowest Selection Rank2 85.00
- 2020 GE RANK3 87.00
- Assumed knowledge Maths and Chemistry

Exercise physiologists play a vital role in the prevention and management of chronic disease and injury. This degree provides you with a comprehensive education in health and exercise science from foundational courses in chemistry and molecular biology, to anatomy, physiology and pathology, then advanced clinical exercise physiology specialisations tailored to your preferred career.

Structure

- Introduction to Biomedical Sciences and Public Health + Core Public Health Disciplines + Electives and Public Health Capstone

Career opportunities
Roles in public health, epidemiology, health protection, health promotion, surveillance and prevention. Graduates may also pursue a research career in public health or seek higher studies, such as a graduate medical program. Potential employers include Government agencies (e.g. health departments), Non-Government organisations (NGOs), multinationals and development agencies (e.g. UN, World Bank, CDC, WHO, AHRC, MSF).

Majors
International Public Health

How to apply

**Medicine**

Apply for and sit the UCAT (University Clinical Aptitude Test). Visit: ucatofficial.com/ucat-anz.
UCAT registration closes on Friday 17 May 2019. Testing will take place in July 2019.

Apply to UNSW via the Medicine Application Portal. Visit: apply.med.unsw.edu.au.
Registrations close in late September 2019.

Complete your Universities Admissions Centre (UAC) application. Visit: www.uac.edu.au.

Attend the Medicine interview (by invitation only).

NOTE: Rural Student Entry Scheme and Indigenous Entry into Medicine Scheme are also available. For more information visit rcs.med.unsw.edu.au/future-students.
The UMAT has been replaced by the UCAT for entry into Medicine from 2019.

**Exercise Physiology**

All domestic applicants must apply through the Universities Admissions Centre (UAC). To lodge your application, visit uac.edu.au/undergraduate/apply. This degree commences in term 1 only.

**International Public Health**

All domestic applicants must apply through the Universities Admissions Centre (UAC). To lodge your application, visit uac.edu.au/undergraduate/apply. This degree has multiple entry points throughout the year.

---

**Adjustment factors**

**HSC Plus**

(Applies to Exercise Physiology and International Public Health)
HSC Plus rewards students who perform well in Year 12 subjects that are relevant to their preferred UNSW degree. You may be awarded up to five points. For more information, visit futurestudents.unsw.edu.au/adjustment-factors-hsc-plus.

**Elite Athletes, Performers & Leaders (EAPL)**

(Applies to Exercise Physiology and International Public Health)
The Elite Athletes, Performers and Leaders (EAPL) Program recognises achievements in areas of sport, academia, leadership, and/or music at an elite level. You may be eligible for up to five points. For more information, visit futurestudents.unsw.edu.au/adjustment-factors-eapl.

**Educational Access Scheme**

(Applies to Medicine, Exercise Physiology and International Public Health)
Factors such as illness, financial hardship, language difficulties and attending a particular school can mean you don’t always get your best marks in Years 11 and 12. If these situations apply to you, submit an application for the Educational Access Scheme via UAC. For more information, visit uac.edu.au/eas.

**Medicine Information Evening**

Join us for the Medicine Information Evening on Wednesday 20 March 2019. Find out more at unsw.to/whatson.
